Our Company

We are one of the premier consumer financial services companies in the United States. Our roots in consumer finance trace back to 1932, and today we are the largest provider of private label credit cards in the United States based on purchase volume and receivables⁽¹⁾. We provide a range of credit products through programs we have established with a diverse group of national and regional retailers, local merchants, manufacturers, buying groups, industry associations and healthcare service providers, which we refer to as our “partners.” Through our partners’ over 350,000 locations across the United States and Canada, and their websites and mobile applications, we offer their customers a variety of credit products to finance the purchase of goods and services. During 2015 and the six months ended June 30, 2016, we financed \$113.6 billion and \$58.5 billion of purchase volume, respectively, and at June 30, 2016, we had \$68.3 billion of loan receivables and 66.5 million active accounts. Our active accounts represent a geographically diverse group of both consumers and businesses, with an average FICO score of 715 for consumer active accounts at June 30, 2016. For the years ended December 31, 2015 and 2014, we had net earnings of \$2.2 billion and \$2.1 billion, respectively, representing a return on assets of 2.9% and 3.2%, respectively, and for the six months ended June 30, 2016, we had net earnings of \$1.1 billion, representing an annualized return on assets of 2.6%.

Our business benefits from longstanding and collaborative relationships with our partners, including some of the nation’s leading retailers and manufacturers with well-known consumer brands, such as Lowe’s, Walmart, Amazon and Ethan Allen. We believe our partner-centric business model has been successful because it aligns our interests with those of our partners and provides substantial value to both our partners and our customers. Our partners promote our credit products because they generate increased sales and strengthen customer loyalty. Our customers benefit from instant access to credit, discounts and promotional offers. We seek to differentiate ourselves through deep partner integration and our extensive marketing expertise. We have omni-channel (in-store, online and mobile) technology and marketing capabilities, which allow us to offer and deliver our credit products instantly to customers across multiple channels. For example, the purchase volume from our online and mobile channels increased by 27% for the three months ended June 30, 2016 compared to the same period in 2015.

We offer our credit products primarily through our wholly-owned subsidiary, the Bank. Through the Bank, we offer, directly to retail and commercial customers, a range of deposit products insured by the Federal Deposit Insurance Corporation (“FDIC”), including certificates of deposit, individual retirement accounts, money market accounts and savings accounts. We also take deposits at the Bank through third-party securities brokerage firms that offer our FDIC-insured deposit products to their customers. We have expanded and continue to expand our online direct banking operations to increase our deposit base as a source of stable and diversified low cost funding for our credit activities. We had \$46.4 billion in deposits at June 30, 2016.

Our revenue activities are managed through three sales platforms: Retail Card, Payment Solutions and CareCredit. Retail Card is a leading provider of private label credit cards, and also provides Dual Cards and small- and medium-sized business credit products. Payment Solutions is a leading provider of promotional

Synchrony is a holding company for the legal entities that historically conducted GE’s North American retail finance business. Synchrony was incorporated in Delaware on September 12, 2003, but prior to April 1, 2013, conducted no business. During the period from April 1, 2013 to September 30, 2013, as part of a regulatory restructuring, substantially all of the assets and operations of GE’s North American retail finance business, including the Bank, were transferred to Synchrony. The remaining assets and operations of that business subsequently were transferred to Synchrony.

For periods prior to June 30, 2014, we have prepared our historical combined financial statements as if Synchrony had conducted GE’s North American retail finance business throughout all relevant periods. Our historical combined financial information and statements include the assets, liabilities and operations of GE’s North American retail finance business.

- (1) In 2011, we completed the sale of a discontinued business operation. The selected earnings information presented above is of continuing operations.
- (2) In January 2016, we adopted ASU 2015-03, Interest—Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs (“ASU 2015-03”), which requires the presentation of deferred issuance costs related to a recognized debt liability as a direct deduction from the carrying amount of the debt liability. Accordingly, we have reclassified issuance costs associated with our borrowings and certain brokered deposits from other assets, and reflected them as a reduction of borrowings and interest-bearing deposit accounts, as applicable, for each period presented to conform to the current period presentation. Our indebtedness, deposit liabilities and total liabilities information presented elsewhere in this prospectus supplement also conforms to ASU 2015-03.

Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update or revise any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events, except as otherwise may be required by the federal securities laws.

RISK FACTORS

You should carefully consider the following risks and those included in our Annual Report on Form 10-K for the year ended December 31, 2015, as updated by our subsequent filings under the Exchange Act, including our Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K and any amendments thereof, before investing in the notes. These risks could materially affect our business, results of operations or financial condition and cause the trading price of the notes to decline. You could lose part or all of your investment.

Risks Relating to This Offering

We are a holding company and will rely significantly on dividends, distributions and other payments from the Bank to fund payments on the notes.

As a holding company, we will rely significantly on dividends, distributions and other payments from the Bank to fund any payments on the notes and our other obligations, as well as to fund any dividends to our stockholders and repurchases of our stock. Accordingly, our ability to make payments on the notes depends upon the earnings of and the distribution of funds from our subsidiaries, including the Bank. Restrictions on our subsidiaries' ability to distribute cash to us could materially affect our ability to make payments on our indebtedness, including the notes.

The ability of the Bank to make dividends and other distributions and payments to us is subject to regulation by the Office of the Comptroller of the Currency of the U.S. Treasury and the Board of Governors of the Federal Reserve System. Limitations on the amounts we receive from the Bank could impact our liquidity and our ability to make payments on the notes when due. See "Item 1A. Risk Factors—Risks Relating to Regulation—We are subject to restrictions that limit our ability to pay dividends and repurchase our common stock; the Bank is subject to restrictions that limit its ability to pay dividends to us, which could limit our ability to pay dividends or make payments on our indebtedness" in our Annual Report on Form 10-K for the year ended December 31, 2015.

In addition, neither the notes nor the terms of our other indebtedness restrict the ability of our subsidiaries to incur indebtedness or enter into other agreements that may restrict or prohibit our subsidiaries from distributing cash to us. We cannot assure you that the indebtedness of our subsidiaries or other agreements to which our subsidiaries are a party will permit our subsidiaries to distribute sufficient cash to us to fund payments on the notes when due.

The notes are effectively subordinated to any secured debt we may incur.

The notes are unsecured and unsubordinated obligations of Synchrony and rank equally in right of payment with all its other unsecured and unsubordinated indebtedness. As a result, the indebtedness represented by the notes is effectively subordinated to any secured indebtedness Synchrony may incur, to the extent of the value of the assets securing such indebtedness. As of June 30, 2016, Synchrony had no secured indebtedness outstanding, and \$7.1 billion of indebtedness that ranked equally with the notes.

In the event of any distribution or payment of our assets in any foreclosure, dissolution, winding up, liquidation or reorganization, or other bankruptcy proceeding, any secured creditors would have a superior claim to the extent of their respective collateral. If any of the foregoing occurs, we cannot assure you that there will be sufficient assets remaining after satisfaction of any such claims to pay amounts due on the notes.

The notes are not guaranteed by any of our subsidiaries and are effectively subordinated to the debt and other liabilities of our subsidiaries.

We are a holding company and conduct substantially all of our operations through subsidiaries. However, the notes are obligations exclusively of Synchrony and are not guaranteed by any of our subsidiaries. As a result,

[Table of Contents](#)

the notes are structurally subordinated to all indebtedness and other liabilities of our subsidiaries (including deposit liabilities of the Bank), as well as the indebtedness and other liabilities of our securitization entities, which means that creditors of our subsidiaries (including depositors of the Bank) and our securitization entities will be paid from their respective assets before holders of the notes would have any claims to those assets. As of June 30, 2016, our subsidiaries and securitization entities had outstanding \$61.2 billion of total liabilities, including \$58.7 billion of indebtedness and deposit liabilities (excluding, in each case, intercompany liabilities).

In the event of the dissolution, winding up, liquidation or reorganization, or other bankruptcy proceeding of a subsidiary or securitization entity, creditors of that subsidiary or securitization entity would generally have the right to be paid in full before any distribution is made to us or the holders of the notes. If any of the foregoing occurs, we cannot assure you that there will be sufficient assets remaining after payments to such creditors to pay amounts due on the notes.

There are no covenants in the indenture governing the notes restricting our ability to incur future indebtedness or pay dividends, and there are limited restrictions on our ability to engage in other activities, any of which could adversely affect our ability to pay our obligations under the notes.

The indenture governing the notes does not prohibit us from incurring substantial additional indebtedness in the future. We are also permitted to incur additional secured indebtedness that would be effectively senior to the notes, to the extent of the value of the assets securing such indebtedness. The indenture governing the notes also permits unlimited additional borrowings by our subsidiaries or securitization entities that are effectively senior to the notes and, subject to certain exceptions, permits our subsidiaries to issue equity interests that have priority over our interests in the subsidiaries. If we incur additional indebtedness or liabilities, our ability to make payments on the notes could be adversely affected. We expect that we will from time to time incur additional debt and other liabilities.

In addition, the indenture does not contain any restrictive covenants limiting our ability to issue or repurchase securities, pay dividends or make any payments on junior or other indebtedness. Our ability to use our funds for numerous purposes may limit the funds available to pay our obligations under the notes.

There are no financial covenants in the indenture governing the notes. You are not protected under the indenture governing the notes in the event of a highly leveraged transaction, reorganization, change of control, restructuring, merger or similar transaction that may adversely affect you, except to the extent described under “Description of Debt Securities—Certain Covenants—Consolidation, Merger and Sale of Assets” in the accompanying prospectus.

We may not be able to generate sufficient cash to service all of our indebtedness, including the notes.

Our ability to make scheduled payments of principal and interest or to satisfy our obligations in respect of our indebtedness or to refinance our indebtedness will depend on our future operating performance. Prevailing economic conditions (including interest rates), regulatory constraints (including, among other things, on distributions to us from the Bank and required capital levels with respect to the Bank) and financial, business and other factors, many of which are beyond our control, will also affect our ability to meet these obligations. We may not be able to generate sufficient cash flows from operations, or obtain future borrowings in an amount sufficient to enable us to pay our indebtedness, or to fund our other liquidity needs. We may need to refinance all or a portion of our indebtedness on or before maturity. We may not be able to refinance any of our indebtedness when needed on commercially reasonable terms or at all.

Our credit ratings may not reflect all risks of an investment in the notes.

The credit ratings of the notes may not reflect the potential impact of all risks related to structure and other factors on any trading market for, or trading value of, the notes. However, actual or anticipated changes in our credit ratings will generally affect any trading market for, or trading value of, the notes.

Agency credit ratings are not a recommendation to buy, sell or hold any security, and may be revised or withdrawn at any time by the issuing organization. Each agency's rating should be evaluated independently of any other agency's rating.

It is unclear how increased regulatory oversight and changes in the method for determining LIBOR may affect the value of the notes and other financial obligations held or issued by us that are linked to LIBOR, or how such changes could affect our results of operations or financial condition.

As a result of concerns about the accuracy of the calculation of LIBOR, a number of British Bankers' Association ("BBA") member banks entered into settlements with certain regulators and law enforcement agencies with respect to the alleged manipulation of LIBOR, and there are ongoing investigations by regulators and governmental authorities in various jurisdictions. Following a review of LIBOR conducted at the request of the U.K. government, recommendations for reforming the setting and governing of LIBOR were released on September 28, 2012 (the "Wheatley Review"). The Wheatley Review made a number of recommendations for changes with respect to LIBOR, including the introduction of statutory regulation of LIBOR, the transfer of responsibility for LIBOR from the BBA to an independent administrator, changes to the method of the compilation of lending rates and new regulatory oversight and enforcement mechanisms for rate-setting and a reduction in the number of currencies and tenors for which LIBOR is published. Based on the Wheatley Review and on a subsequent public and governmental consultation process, the U.K. Financial Services Authority published final rules for the U.K. Financial Conduct Authority's regulation and supervision of LIBOR on March 25, 2013 (the "FCA Rules"). In particular, the FCA Rules include requirements that: (i) an independent LIBOR administrator monitor and survey LIBOR submissions to identify breaches of practice standards and/or potentially manipulative behavior and (ii) firms submitting data to LIBOR establish and maintain a clear conflicts of interest policy and appropriate systems and controls. The FCA Rules took effect on April 2, 2013.

On February 1, 2014, the administration of LIBOR was transferred from the BBA to ICE Benchmark Administration Limited ("IBA"). IBA may make changes in methodology that could change the level of LIBOR, which in turn may adversely affect the value of the notes. On October 20, 2014, IBA published a "Position Paper" proposing a unified, transaction-based prescriptive methodology for the calculation of LIBOR, using pre-defined parameters. IBA is also proposing alternative calculation methodologies in order to ensure LIBOR is always available, even in times of market stress when there are insufficient transactions to produce reliable submissions. On July 31, 2015, IBA published a "Second Position Paper" providing further details on the proposed methodology updates for calculating LIBOR and outlining a timetable for the reforms. IBA may also alter, discontinue or suspend calculation or dissemination of LIBOR. IBA may take any actions in respect of LIBOR without regard to the interests of any investor in the notes, and any of these actions could have an adverse effect on the value of the notes, which was followed on March 18, 2016 by a roadmap based on feedback to the position papers, as well as discussions with stakeholders. On June 29, 2016, IBA published a consultation notice, together with a proposed revised Code of Conduct (setting out the framework within which panel banks operate in the LIBOR context) and the ICE LIBOR Output Statement (setting out a revised definition/calculation of "LIBOR"). Stakeholders had until July 13, 2016 to comment on the proposed changes to the Code of Conduct, and IBA is expected to publish the final version of these guidelines following such date.

It is uncertain what additional regulatory changes or what changes, if any, in the method of determining LIBOR may be required or made by the U.K. government or other governmental or regulatory authorities or IBA. Accordingly, it is not certain whether or to what extent any such changes could have an adverse impact on the value of the notes, any other LIBOR-linked notes issued by us, or any loans and other financial obligations or extensions of credit for which we are an obligor. It is also not certain whether or to what extent any such changes would have an adverse impact on the value of any LIBOR-linked securities, loans, derivatives and other financial obligations or extensions of credit held by or due to us or on our results of operations or financial condition.

An active trading market for the notes may not exist.

The notes are not listed and we do not intend to apply for listing of the notes on any securities exchange or for quotation of the notes in any automated dealer quotation system. We cannot provide you with any assurance regarding whether, following the completion of this offering, an active trading market for the notes will exist, the ability of holders of the notes to sell their notes or the price at which holders may be able to sell their notes. The underwriters have advised us that they currently intend to continue to make a market in the notes, but they are not obligated to do so and may cease market-making activities at any time without notice. If no active trading market for the notes exists, the market price and liquidity of the notes may be adversely affected.

Changes in our credit ratings or the debt markets could adversely affect the trading price of the notes.

The trading price of the notes depends on many factors, including:

- the number of holders of the notes;
- changes in or issuance of new credit ratings for us or our asset-backed securities;
- the interest of securities dealers in making a market in the notes;
- the prevailing interest rates being paid by other companies similar to us;
- general market conditions;
- our financial condition, financial performance and future prospects;
- domestic and international economic factors unrelated to our performance;
- changes in or failure to meet our publicly disclosed expectations as to our future financial performance;
- downgrades in securities analysts' estimates of our financial performance, operating results that vary from the expectations of securities analysts or investors or lack of research and reports by industry analysts;
- operating and securities price performance of companies that investors consider to be comparable to us;
- any future sales of our common stock or other securities;
- additions or departures of key personnel;
- actions or announcements by our competitors;
- reputational issues;
- regulatory and tax actions;
- changes in our capital structure or dividend policy, regulatory requirements, future issuances of securities, sales of large blocks of common stock by our stockholders, or our incurrence of additional debt;
- the market prices for our equity securities; and
- other matters discussed elsewhere in "Risk Factors" in this prospectus supplement and under the caption "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015, as updated by our subsequent filings under the Exchange Act, including our Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K and any amendments thereof.

The condition of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Such fluctuations could have an adverse effect on the trading price of the notes. In addition, credit rating agencies continually review their ratings for the companies that they follow, including us. The credit rating agencies also evaluate the consumer finance industry as a whole and may change their credit rating for us based on their overall view of our industry. A negative change in our rating or that of other peer companies could have an adverse effect on the trading price of the notes.

USE OF PROCEEDS

We estimate that the net proceeds to us from the sale of the notes in this offering will be \$200,118,000, after deducting the underwriting discount and estimated offering expenses (but excluding accrued interest of approximately \$243,594.44).

We intend to use the net proceeds from this offering for general corporate purposes.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of earnings to fixed charges for the periods indicated.

For purposes of determining the ratio of earnings to fixed charges, “earnings” consist of earnings before provision for income taxes, plus fixed charges. “Fixed charges” consist of (i) interest expense on all indebtedness, including amortization of debt expense, discounts and premiums and (ii) the portion of rental expense that is representative of the interest factor.

DESCRIPTION OF THE NOTES

The following description supplements and, to the extent it is inconsistent, supersedes the description of the general provisions of the notes and the indenture under “Description of Debt Securities” in the accompanying prospectus. This description of the notes and the description under “Description of Debt Securities” in the accompanying prospectus do not purport to be complete and are qualified in their entirety by reference to the provisions of the base indenture governing the notes, the fifth supplemental indenture and the form of notes that are or will be filed as exhibits to the registration statement of which the accompanying prospectus forms apart, and to the Trust Indenture Act of 1939, as amended. We urge you to read the base indenture governing the notes, the fifth supplemental indenture and the forms of notes because they, and not these descriptions of the notes and debt securities, will define your rights as holders of the notes.

As used in this description of the notes, “we,” “our,” “us” and “Synchrony” refer to SYNCHRONY FINANCIAL and not to any of our subsidiaries.

General

We are offering \$200.0 million of our Floating Rate Senior Notes due 2017. The notes offered hereby constitute an additional issuance of our Floating Rate Senior Notes due 2017, \$500.0 million aggregate principal amount of which were previously issued and are outstanding. The notes offered hereby will be fungible and form a single series with the outstanding Floating Rate Senior Notes due 2017 for all purposes.

We will issue the notes offered hereby under an indenture (the “base indenture”), dated as of August 11, 2014, between us and The Bank of New York Mellon, as trustee (the “trustee”), as heretofore supplemented and as further supplemented by a fifth supplemental indenture (the “supplemental indenture”), dated as of May 9, 2016, between us and the trustee. We refer to the base indenture governing the notes, as supplemented by the supplemental indenture, as the “indenture.” The trustee will initially be the security registrar and paying agent for the notes offered hereby.

On August 11, 2014, we issued \$500.0 million in aggregate principal amount of 1.875% Senior Notes due 2017, \$1,100.0 million in aggregate principal amount of 3.000% Senior Notes due 2019, \$750.0 million in aggregate principal amount of 3.750% Senior Notes due 2021 and \$1,250.0 million in aggregate principal amount of 4.250% Senior Notes due 2024. On February 2, 2015, we issued \$750.0 million in aggregate principal amount of 2.700% Senior Notes due 2020 and \$250.0 million in aggregate principal amount of Floating Rate Senior Notes due 2020. On July 23, 2015, we issued \$1,000.0 million in aggregate principal amount of 4.500% Senior Notes due 2025. On December 4, 2015, we issued \$1,000.0 million in aggregate principal amount of 2.600% Senior Notes due 2019. On May 9, 2016, we issued \$500.0 million in aggregate principal amount of Floating Rate Senior Notes due 2017, of which the notes offered hereby will constitute the same series. On August 4, 2016, we issued \$500.0 million in aggregate principal amount of 3.700% Senior Notes due 2026.

Upon issuance of the notes offered hereby, the aggregate principal amount of the notes will be limited to \$700,000,000. The notes will mature at par on November 9, 2017.

When we use the term “business day,” we mean any calendar day that is not a Saturday, Sunday or a day on which commercial banking institutions are not required to be open for business in The City of New York, New York and London, United Kingdom; “London business day” means any calendar day on which commercial banks are open for dealings in deposits in U.S. dollars in the London interbank market.

The notes are not entitled to the benefit of any sinking funds.

The notes offered hereby will be issued in the form of one or more fully registered global notes registered in the name of the nominee of DTC and in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

Table of Contents

In addition to the notes, we may issue from time to time other series of debt securities under the indenture consisting of debentures, notes or other unsecured, unsubordinated evidences of indebtedness, including convertible notes, but such other series will be separate from the notes. The indenture does not limit the amount of debt securities or any other debt (whether secured or unsecured, or whether subordinated or unsubordinated) that we may incur.

We may, from time to time, without the consent of the holders of the notes, issue additional notes having the same ranking and the same interest rate, maturity and other terms as the notes, except for the public offering price, the issue date and, if applicable, the initial interest payment date and initial interest accrual date. Any such additional notes, together with the notes offered hereby, will constitute a single series of debt securities under the indenture; *provided* that if the additional notes are not fungible for U.S. federal income tax purposes with the notes offered by this prospectus, the additional notes will be issued under a separate CUSIP number. No additional notes may be issued if an event of default has occurred and is continuing with respect to the notes.

We will maintain an office or agency in the Borough of Manhattan, The City of New York where we will pay the principal of, and interest on, the notes and you may present the notes for registration of transfer and exchange. We have designated the office of the trustee located at 101 Barclay Street, New York, New York 10286 for this purpose.

Interest

Interest on the notes offered hereby will accrue from August 9, 2016 and is payable quarterly in arrears on February 9, May 9, August 9 and November 9 of each year, with the first payment of interest on the notes offered hereby on November 9, 2016 (each, an “interest payment date”), to the persons in whose names the notes are registered at the close of business on the January 25, April 24, July 25 and October 25 (whether or not a business day), respectively, immediately prior to each interest payment date; *provided* that the interest due at maturity (whether or not an interest payment date) will be paid to the person to whom principal is payable. Interest shall be calculated on the basis of the actual number of days in the period divided by 360.

The interest rate on the notes is reset quarterly February 9, May 9, August 9 and November 9 of each year, commencing August 9, 2016 (each, an “interest reset date”), and the notes bear interest at an annual rate equal to three-month LIBOR (as determined below) for the applicable interest reset period (as defined below), plus 1.400% per year. Each “interest reset period” will be the period from, and including, an interest reset date to, but excluding, the immediately succeeding interest reset date; *provided* that the final interest reset period for the notes will be the period from, and including, the interest reset date immediately preceding the maturity date of the notes to, but excluding, the maturity date. The “interest determination date” is the second London business day immediately preceding the applicable interest reset date.

Interest payable on the notes on any interest payment date or the maturity date shall be the amount of interest accrued from, and including, the immediately preceding interest payment date in respect of which interest has been paid or duly provided for to, but excluding, the interest payment date or maturity date, as the case may be. If any interest reset date or interest payment date for the notes (other than the maturity date) would otherwise be a day that is not a business day, such interest reset date or interest payment date, as the case may be, will be postponed to the next succeeding day that is a business day and interest on the notes will continue to accrue on the payment so deferred, except that if that business day is in the next succeeding calendar month, the interest reset date or interest payment date, as the case may be, shall be the immediately preceding business day. If the maturity date for any note falls on a date that is not a business day, the related payments of principal and interest will be made on the next succeeding business day, and no additional interest will accrue on the amount payable for the period from and after the maturity date.

Table of Contents

The Bank of New York Mellon, or its successor appointed by us, acts as calculation agent. Three-month LIBOR is determined by the calculation agent as of the applicable interest determination date in accordance with the following provisions:

- Three-month LIBOR is the rate for deposits in U.S. dollars having a three-month maturity, commencing on the related interest reset date immediately following such interest determination date, which appears on the Reuters LIBOR01 Page (as defined below) as of approximately 11:00 a.m., London time, on such interest determination date. “Reuters LIBOR01 Page” means the display designated as page “LIBOR01” on the Reuters Monitor Money Rates Service (or such other page as may replace the LIBOR01 page on that service, any successor service or such other service as may be nominated as the information vendor for the purpose of displaying rates or prices comparable to the London Interbank Offered Rate for U.S. dollar deposits). If no rate appears on the Reuters LIBOR01 Page as of approximately 11:00 a.m., London time, on an interest determination date, three-month LIBOR for such interest determination date will be determined in accordance with the provisions of the next succeeding bullet point.
- With respect to an interest determination date on which no rate appears on the Reuters LIBOR01 Page as of approximately 11:00 a.m., London time, on such interest determination date, the calculation agent shall request the principal London offices of each of four major reference banks (which may include affiliates of the underwriters) in the London interbank market selected and identified by us to provide the calculation agent with a quotation of the rate at which deposits of U.S. dollars having a three-month maturity, commencing on the related interest reset date immediately following such interest determination date, are offered by it to prime banks in the London interbank market as of approximately 11:00 a.m., London time, on such interest determination date in a principal amount equal to an amount of not less than U.S. \$1,000,000 that is representative for a single transaction in such market at such time. If at least two such quotations are provided, three-month LIBOR for such interest determination date will be the arithmetic mean of such quotations as calculated by the calculation agent. If fewer than two quotations are provided, three-month LIBOR for such interest determination date will be the arithmetic mean of the rates quoted as of approximately 11:00 a.m., New York City time, on such interest determination date by three major banks (which may include affiliates of the underwriters) selected and identified by us for loans in U.S. dollars to leading European banks having a three-month maturity commencing on the related interest reset date immediately following such interest determination date and in a principal amount equal to an amount of not less than U.S. \$1,000,000 that is representative for a single transaction in such market at such time; *provided, however*, that if the banks selected by us are not quoting such rates as set forth in this sentence, three-month LIBOR for such interest determination date will be three-month LIBOR determined with respect to the immediately preceding interest determination date.

All percentages resulting from any calculation of any interest rate for the notes will be rounded, if necessary, to the nearest one hundred thousandth of a percentage point, with five one-millionths of a percentage point rounded upward and all dollar amounts will be rounded to the nearest cent, with one-half cent being rounded upward.

Promptly upon such determination, the calculation agent will notify us and the trustee (if the calculation agent is not the trustee) of the interest rate for the new interest reset period. Upon request of a holder of notes, the calculation agent will provide to such holder the interest rate in effect on the date of such request and, if determined, the interest rate for the next interest reset period.

All calculations made by the calculation agent for the purposes of calculating interest on the notes shall be conclusive and binding on the holders, the trustee and us, absent manifest error.

Ranking

The notes are our direct, unsecured obligations and rank equally in right of payment with all of our existing and future unsecured and unsubordinated obligations, and senior in right of payment to all of our existing and future indebtedness that is expressly subordinated to the notes.

We are a holding company and conduct substantially all of our operations through subsidiaries. However, the notes are obligations exclusively of Synchrony and are not guaranteed by any of our subsidiaries (including the Bank). As a result, the notes are structurally subordinated to all indebtedness and other liabilities of our subsidiaries (including deposit liabilities of the Bank), as well as the indebtedness and other liabilities of our securitization entities, which means that creditors of our subsidiaries (including depositors of the Bank) and our securitization entities will be paid from their respective assets before holders of the notes would have any claims to those assets. At June 30, 2016, our subsidiaries and securitization entities had outstanding \$61.2 billion of total liabilities, including \$58.7 billion of indebtedness and deposit liabilities (excluding, in each case, intercompany liabilities).

As a holding company, we depend on the ability of our subsidiaries, particularly the Bank, to transfer funds to us to meet our obligations, including our obligations to pay interest on the notes. See “Risk Factors—Risks Relating to This Offering—We are a holding company and will rely significantly on dividends, distributions and other payments from the Bank to fund payments on the notes” in this prospectus supplement. Our subsidiaries have no obligation to pay any amounts due on the notes.

At June 30, 2016, Synchrony had no secured indebtedness outstanding, and \$7.1 billion of indebtedness that ranked equally with the notes. The indenture does not limit our ability, or the ability of our subsidiaries, to incur senior, subordinated or secured debt, or our ability, or that of any of our subsidiaries, to incur other indebtedness and other liabilities or, subject to limited exceptions, issue preferred stock.

Optional Redemption

The notes are not redeemable prior to maturity.

Trustee

The Bank of New York Mellon is the trustee with respect to the notes. The trustee is one of a number of banks with which we and our subsidiaries maintain banking and trust relationships in the ordinary course of business.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR HOLDERS

The following discussion describes U.S. federal income tax consequences of ownership and disposition of the notes to an initial beneficial owner of the notes (a “Holder”). This discussion is limited to Holders who hold the notes as capital assets within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the “Code”). This description is based on the Code, administrative pronouncements, judicial decisions and existing and proposed Treasury regulations, and interpretations of the foregoing, changes to any of which subsequent to the date of this prospectus supplement may affect the tax consequences described herein. The description does not discuss all of the tax consequences that may be relevant to Holders in light of their particular circumstances. Moreover, this discussion is for general information only and does not address all of the tax consequences that may be relevant to you in light of your particular circumstances, nor does it discuss special tax provisions, which may apply to you and holders of your equity, if applicable, if you are subject to special treatment under U.S. federal income tax laws, such as for certain financial institutions or financial services entities, insurance companies, tax-exempt entities, dealers in securities or currencies, entities or arrangements that are treated as partnerships for U.S. federal income tax purposes, “controlled foreign corporations,” “passive foreign investment companies,” former U.S. citizens or long-term residents, persons deemed to sell the notes under the constructive sale provisions of the Code, and persons that hold the notes as part of a straddle, conversion transaction, or other integrated investment. In addition, this discussion does not address any state, local or foreign tax laws or any U.S. federal tax law other than U.S. federal income tax law (such as gift or estate tax laws).

You are urged to consult with your own tax advisor concerning the U.S. federal income tax consequences of owning and disposing of the notes, as well as the application of any state, local, and foreign income and other tax laws.

As used in this section, a “U.S. Holder” is a Holder that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States,
- a corporation (or other entity taxable as a corporation) created or organized in or under the laws of the United States, any state thereof or the District of Columbia,
- an estate the income of which is subject to U.S. federal income taxation regardless of its source, or
- a trust (i) if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (ii) that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

A “Non-U.S. Holder” means any Holder that is not a U.S. Holder or an entity or arrangement treated as a partnership or a disregarded entity for U.S. federal income tax purposes.

If you are an individual, you may, in certain cases, be deemed to be a resident alien, as opposed to a nonresident alien, with respect to a calendar year by virtue of being present in the United States (i) for at least 183 days during the calendar year, or (ii) for at least 31 days in the calendar year and for an aggregate of at least 183 days during the three-year period ending with the calendar year. For purposes of (ii), all of the days present in the current year, one-third of the days present in the immediately preceding calendar year, and one-sixth of the days present in the second preceding calendar year are counted. Resident aliens are subject to U.S. federal income tax as if they were U.S. citizens.

If any entity or arrangement treated as a partnership for U.S. federal income tax purposes is a beneficial owner of the notes, the tax treatment of a partner in the partnership generally will depend upon the status of the partner and the activities of the partnership. Special rules may apply if a Non-U.S. Holder is a “controlled foreign corporation” or “passive foreign investment company,” as defined under the Code, and to certain expatriates or

[Table of Contents](#)

former long-term residents of the United States. If you fall within any of the foregoing categories, you should consult with your own tax advisor about the tax consequences of acquiring, holding, and disposing of the notes.

Qualified Reopening

For U.S. federal income tax purposes, we intend to treat the notes offered hereby as being issued in a “qualified reopening” of the currently outstanding Floating Rate Senior Notes due 2017 in an aggregate principal amount of \$500.0 million (the “original notes”). For U.S. federal income tax purposes, debt instruments issued in a qualified reopening are deemed to be part of the same issue as the original debt instruments. Under the treatment described in this paragraph, the notes offered hereby will have the same issue date and the same issue price as the original notes for U.S. federal income tax purposes. The issue price of the original notes was \$1,000 per \$1,000 face amount and the issue date of the original notes was May 9, 2016. The remainder of this discussion assumes the correctness of the treatment described in this paragraph.

U.S. Holders

Pre-Acquisition Accrued Interest on the Notes

A portion of the price paid for the notes is attributable to the amount of interest accrued from and including August 9, 2016 (the “pre-acquisition accrued interest”). To the extent a portion of a U.S. Holder’s purchase price is allocable to pre-acquisition accrued interest, a portion of the first stated interest payment equal to the amount of such pre-acquisition accrued interest will be treated as a nontaxable return of such pre-acquisition accrued interest to the U.S. Holder and will reduce a U.S. Holder’s adjusted tax basis in the note by a corresponding amount.

Stated Interest on the Notes

A U.S. Holder generally will be required to include stated interest earned on the notes (other than pre-acquisition accrued interest) as ordinary income when received or accrued in accordance with the U.S. Holder’s regular method of tax accounting to the extent such interest is “qualified stated interest.” Stated interest is qualified stated interest if it is unconditionally payable in cash at least annually. The stated interest on the notes is qualified stated interest.

Amortizable Bond Premium

If a note is purchased at a price in excess of such note’s stated principal amount (excluding any amounts that are treated as pre-acquisition accrued interest as described above under “—Pre-Acquisition Accrued Interest on the Notes”), a U.S. Holder will have bond premium with respect to that new note in an amount equal to such excess. A U.S. Holder generally may elect to amortize bond premium using the constant yield method over the remaining term of the note and may offset stated interest income otherwise required to be included in respect of the note during any taxable year by the amortized amount of bond premium for the taxable year. A U.S. Holder’s election to amortize bond premium on a constant yield method, once made, will also apply to all other debt obligations with bond premium that a U.S. Holder holds at the beginning of or acquires in or after the first taxable year to which the election applies and may not be revoked without the consent of the Internal Revenue Service (“IRS”). If a U.S. Holder does not elect to amortize the bond premium, the bond premium will decrease the gain or increase the loss such holder would otherwise recognize on the disposition of the note. You are urged to consult your own tax advisors with respect to the rules relating to amortizable bond premium and the application to their particular circumstances.

Sale, Exchange, Redemption, or Other Taxable Disposition of the Notes

Unless a non-recognition provision applies, upon the sale, exchange, redemption, or other taxable disposition of a note, a U.S. Holder will generally recognize capital gain or loss equal to the difference (if any)

[Table of Contents](#)

between the amount realized (other than amounts attributable to accrued but unpaid stated interest, which will be taxable as ordinary income to the extent not previously included in income, except for pre-acquisition accrued interest which will be taxable as described above under “—Pre-Acquisition Accrued Interest”) and such U.S. Holder’s adjusted tax basis in the note. The U.S. Holder’s adjusted tax basis in a note generally will be the purchase price for the note reduced by the amount received in respect of pre-acquisition accrued interest and reduced by any bond premium previously amortized. Such gain or loss will be treated as long-term capital gain or loss if the note was held for more than one year at the time of disposition. Long-term capital gain recognized by certain non-corporate U.S. Holders generally will be subject to a preferential tax rate. Subject to limited exceptions, capital losses cannot be used to offset a U.S. Holder’s ordinary income.

Medicare Tax

Certain U.S. Holders that are individuals, estates or trusts are subject to a 3.8% Medicare tax on all or a portion of their “net investment income,” which may include all or a portion of their interest and net gains from the sale or other disposition of the notes. If you are a U.S. Holder that is an individual, estate or trust, you should consult your tax advisors regarding the applicability of the Medicare tax to your income and gains in respect of your investment in the notes.

Information Reporting and Backup Withholding

In general, information reporting will apply to a U.S. Holder (other than an “exempt recipient,” including a corporation and certain other persons who, when required, demonstrate their exempt status) with respect to:

- any payments made of principal of, premium, if any, and interest on, the notes; and
- payment of the proceeds of a sale or other disposition of the notes.

In addition, “backup withholding” at the applicable statutory rate may apply to such amounts if a U.S. Holder fails to provide a correct taxpayer identification number certified under penalties of perjury or otherwise comply with applicable requirements of the backup withholding rules. A U.S. Holder that does not provide its correct taxpayer identification number also may be subject to penalties imposed by the IRS.

Any backup withholding is not an additional tax and may be refunded or credited against the U.S. Holder’s U.S. federal income tax liability, provided that the required information is timely provided to the IRS.

Non-U.S. Holders

U.S. Federal Withholding Tax

Subject to the discussions below concerning backup withholding and FATCA (as defined below), U.S. federal withholding tax will not apply to any payment of principal or interest on the notes, provided that in the case of interest:

- you do not actually (or constructively) own 10% or more of the total combined voting power of all classes of our voting stock within the meaning of the Code and the Treasury regulations;
- you are not a controlled foreign corporation that is related, directly or indirectly, to us through stock ownership; and
- (a) you provide your name, address and certain other information on an IRS Form W-8BEN or W-8BEN-E, as applicable (or a suitable substitute form), and certify, under penalties of perjury, that you are not a U.S. person or (b) you hold your notes through certain foreign intermediaries or certain foreign partnerships and certain certification requirements are satisfied.

Interest payments that are effectively connected with the conduct of a trade or business by you within the United States (and, where an applicable tax treaty so provides, are also attributable to a U.S. permanent

[Table of Contents](#)

establishment maintained by you) are not subject to the U.S. federal withholding tax, but instead are subject to U.S. federal income tax as described below.

If you cannot satisfy the requirements described above, payments of interest will be subject to a 30% U.S. federal withholding tax unless a tax treaty applies or the interest payments are effectively connected with the conduct of a U.S. trade or business. If a tax treaty applies to you, you may be eligible for a reduction of or exemption from U.S. federal withholding tax. To claim any exemption from or reduction of the 30% withholding tax, you should provide a properly executed IRS Form W-8BEN or W-8BEN-E, as applicable (or a suitable substitute form), claiming a reduction of or an exemption from withholding tax under an applicable tax treaty or a properly executed IRS Form W-8ECI (or a suitable substitute form) stating that such payments are not subject to withholding tax because they are effectively connected with your conduct of a trade or business in the United States.

U.S. Federal Income Tax

Any gain, other than amounts attributable to accrued interest which is taxable as set forth above, realized on the disposition of a note (including a redemption or retirement) will generally not be subject to U.S. federal income tax unless such gain is effectively connected with your conduct of a trade or business in the United States (and, where an applicable tax treaty so provides, is also attributable to a U.S. permanent establishment maintained by you).

If you are engaged in a trade or business in the United States (and, if a tax treaty applies, you also maintain a U.S. permanent establishment) and interest or gain on the notes is effectively connected with the conduct of such trade or business (and, if a tax treaty applies, is attributable to such permanent establishment), you will be subject to U.S. federal income tax (but not U.S. withholding tax assuming, in the case of interest, a properly executed Form W-8ECI (or a suitable substitute form) is provided) on such interest or gain on a net income basis in generally the same manner as if you were a U.S. person. In addition, in certain circumstances, if you are a foreign corporation you may be subject to a 30% (or, if a tax treaty applies, such lower rate as provided by the treaty) branch profits tax.

Backup Withholding and Information Reporting

Interest paid to a Non-U.S. Holder must be reported annually to the IRS and to the Non-U.S. Holder. Copies of these information returns also may be made available to the tax authorities of the country in which the Non-U.S. Holder resides under the provisions of various treaties or agreements for the exchange of information.

Unless the Non-U.S. Holder is an exempt recipient, interest paid on the notes and the gross proceeds from a taxable disposition of the notes may be subject to additional information reporting and may also be subject to U.S. federal backup withholding (at a rate of 28%) if such Non-U.S. Holder fails to comply with applicable U.S. information reporting and certification requirements. Provision of an IRS Form W-8 appropriate to the Non-U.S. Holder's circumstances will generally satisfy the certification requirements necessary to avoid backup withholding.

Backup withholding is not an additional tax. Any amounts so withheld under the backup withholding rules will be refunded by the IRS or credited against the Non-U.S. Holder's U.S. federal income tax liability, provided that the required information is timely furnished to the IRS.

Other Withholding Requirements

Non-U.S. Holders of the notes may be subject to U.S. withholding tax at a rate of 30% under Sections 1471 through 1474 of the Code (commonly referred to as "FATCA") on payments of interest on the notes. This withholding tax may apply if a Non-U.S. Holder (or any foreign intermediary that receives a payment on a Non-

[Table of Contents](#)

U.S. Holder's behalf) does not comply with certain U.S. informational reporting requirements, such compliance usually evidenced by delivery of a properly executed IRS Form W-8BEN-E. An intergovernmental agreement between the United States and an applicable foreign country may modify these requirements. Non-U.S. Holders should consult their tax advisors regarding the possible implications of FATCA on their investment in the notes.

You should consult your own tax advisor as to particular tax consequences to you of acquiring, holding, and disposing of the notes, including the applicability and effect of other United States federal, state, local or foreign tax laws, and of any proposed changes in applicable law.

UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement dated the date of this prospectus supplement, the underwriters named below, for whom J.P. Morgan Securities LLC and Morgan Stanley & Co. LLC are acting as representatives, have severally agreed to purchase, and Synchrony has agreed to sell to them, severally, the principal amount of notes indicated below:

<u>Name</u>	<u>Principal Amount of Notes</u>
J.P. Morgan Securities LLC	\$ 100,000,000
Morgan Stanley & Co. LLC	100,000,000
Total	<u>\$ 200,000,000</u>

J.P. Morgan Securities LLC and Morgan Stanley & Co. LLC are the joint book-running managers of this offering.

The underwriters are offering the notes subject to their acceptance of the notes from us and subject to prior sale. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the notes offered hereby are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the notes offered by this prospectus supplement and the accompanying prospectus if any such notes are taken. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may also be increased or this offering may be terminated.

The underwriters initially propose to offer the notes directly to the public at the public offering price listed on the cover page of this prospectus supplement and may offer the notes to certain dealers at a price that represents a concession not in excess of 0.150% of the principal amount of the notes. Any underwriter may allow, and such dealers may reallow, a concession not in excess of 0.100% of the principal amount of the notes to other underwriters or to certain dealers. After the initial offering of the notes, the offering price and other selling terms may from time to time be varied by the representatives. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The underwriting discount will be determined by negotiations among us and the representatives and are a percentage of the offering price to the public. Among the factors to be considered in determining the underwriting discount will be the size of this offering, the nature of the security to be offered and the underwriting discount charged in comparable transactions.

The following table shows the per note and total underwriting discount to be paid to the underwriters.

	<u>Underwriting Discount</u>
Per Note	0.200%
Total	\$ 400,000

The estimated offering expenses are approximately \$350,000, which includes legal, accounting and printing costs and various other fees associated with this offering. All offering expenses will be payable by us.

A prospectus supplement and accompanying prospectus in electronic format may be made available on websites maintained by one or more underwriters. The underwriters may agree to allocate notes to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the joint book-running managers to underwriters that may make Internet distributions on the same basis as other allocations.

Table of Contents

The notes are not listed and we do not intend to apply for listing of the notes on any securities exchange or for quotation of the notes in any automated dealer quotation system. We cannot provide you with any assurance regarding whether, following the completion of this offering, an active trading market for the notes will exist, the ability of holders of the notes to sell their notes or the price at which holders may be able to sell their notes. The underwriters have advised us that they currently intend to continue to make a market in the notes, but they are not obligated to do so and may cease market-making activities at any time without notice. If no active trading market for the notes exists, the market price and liquidity of the notes may be adversely affected.

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of notes than they are required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while this offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives or their respective affiliates have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

These activities by the underwriters, as well as other purchases by the underwriters for their own accounts, may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

We and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act.

Relationships with Underwriters

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to us and our affiliates, for which they received or will receive customary fees and expenses.

In addition, one or more underwriters and/or their respective affiliates have received, and may in the future receive, customary fees and reimbursement of expenses as underwriters of securities offered by certain of our securitization trusts from time to time. One or more underwriters and/or their respective affiliates may also from time to time act as lenders to certain of our securitization trusts.

In the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively traded securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve

or relate to assets, securities and/or instruments (directly, as collateral securing other obligations or otherwise) of ours and/or our affiliates. If any of the underwriters or their affiliates has a lending relationship with us or our affiliates, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us or our affiliates consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

LEGAL MATTERS

The validity of the notes offered hereby will be passed upon for us by Sidley Austin LLP, New York, New York. Certain legal matters will be passed upon for the underwriters by Weil, Gotshal & Manges LLP, New York, New York. Weil, Gotshal & Manges LLP performs legal services for us from time to time.

OUR COMPANY

We are one of the premier consumer financial services companies in the United States. Our roots in consumer finance trace back to 1932, and today we are the largest provider of private label credit cards in the United States based on purchase volume and receivables. We provide a range of credit products through programs we have established with a diverse group of national and regional retailers, local merchants, manufacturers, buying groups, industry associations and healthcare service providers, which we refer to as our “partners.” Through our partners’ locations across the United States and Canada, and their websites and mobile applications, we offer their customers a variety of credit products to finance the purchase of goods and services.

Our business benefits from longstanding and collaborative relationships with our partners, including some of the nation’s leading retailers and manufacturers with well-known consumer brands, such as Lowe’s, Walmart, Amazon and Ethan Allen. We believe our partner-centric business model has been successful because it aligns our interests with those of our partners and provides substantial value to both our partners and our customers. Our partners promote our credit products because they generate increased sales and strengthen customer loyalty. Our customers benefit from instant access to credit, discounts and promotional offers. We seek to differentiate ourselves through deep partner integration and our extensive marketing expertise. We have omni-channel (in-store, online and mobile) technology and marketing capabilities, which allow us to offer and deliver our credit products instantly to customers across multiple channels.

We offer our credit products primarily through our wholly-owned subsidiary, the Bank. Through the Bank, we offer, directly to retail and commercial customers, a range of deposit products insured by the Federal Deposit Insurance Corporation (the “FDIC”), including certificates of deposit, individual retirement accounts, money market accounts and savings accounts, under our Optimizer⁺Plus brand. We also take deposits at the Bank through third-party securities brokerage firms that offer our FDIC-insured deposit products to their customers. We are expanding our online direct banking operations to increase our deposit base as a source of stable and diversified low cost funding for our credit activities.

RISK FACTORS

Investing in our securities involves risks. Before deciding to purchase any of our securities, you should carefully consider the discussion of risks and uncertainties under “Item 1A. Risk Factors” in the Form 10 Information, and under similar headings in our subsequently filed annual reports on Form 10-K and quarterly reports on Form 10-Q, as well as the other risks and uncertainties described in any other documents incorporated by reference in this prospectus or in any applicable prospectus supplement or free writing prospectus. See the section entitled “Where You Can Find More Information” in this prospectus.

FORWARD-LOOKING STATEMENTS

Some of the statements in this prospectus, in the documents incorporated by reference into this prospectus and in any supplement to this prospectus include “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995.

Forward-looking statements may be identified by words such as “expects,” “intends,” “anticipates,” “plans,” “believes,” “seeks,” “targets,” “estimates,” “will” or words of similar meaning. Examples of forward-looking statements include, but are not limited to, statements regarding the outlook for our future business and financial performance, such as those contained in “Item 2. Financial Information—Management’s Discussion and Analysis of Financial Condition and Results of Operations—Business Trends and Conditions” in the Form 10 Information. Forward-looking statements are based on management’s current expectations and assumptions, and are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. As a result, actual results could differ materially from those indicated in these forward-looking statements. Factors that could cause actual results to differ materially include global political, economic, business, competitive, market, regulatory and other factors and risks, such as:

- the impact of macroeconomic conditions and whether industry trends we have identified develop as anticipated;
- retaining existing partners and attracting new partners, concentration of our platform revenue in a small number of Retail Card partners, promotion and support of our products by our partners, and financial performance of our partners;
- our need for additional financing, higher borrowing costs and adverse financial market conditions impacting our funding and liquidity, and any reduction in our credit ratings;
- our ability to securitize our loans, occurrence of an early amortization of our securitization facilities, loss of the right to service or subservice our securitized loans, and lower payment rates on our securitized loans;
- our reliance on dividends, distributions and other payments from the Bank;
- our ability to grow our deposits in the future;
- changes in market interest rates and the impact of any margin compression;
- effectiveness of our risk management processes and procedures, reliance on models which may be inaccurate or misinterpreted, our ability to manage our credit risk, the sufficiency of our allowance for loan losses and the accuracy of the assumptions or estimates used in preparing our financial statements;
- our ability to offset increases in our costs in retailer share arrangements;
- competition in the consumer finance industry;
- our concentration in the U.S. consumer credit market;
- our ability to successfully develop and commercialize new or enhanced products and services;
- our ability to realize the value of strategic investments;
- reductions in interchange fees;
- fraudulent activity;
- cyber-attacks or other security breaches;
- failure of third parties to provide various services that are important to our operations;
- disruptions in the operations of our computer systems and data centers;

See "Item 1A. Risk Factors" in the Form 10 Information for a further description of these and other factors. For the reasons described above, we caution you against relying on any forward-looking statements, which should also be read in conjunction with the other cautionary statements that are included elsewhere in this prospectus, including in "Risk Factors." You should not consider any list of such factors to be an exhaustive statement of all of the risks, uncertainties, or potentially inaccurate assumptions that could cause our current expectations or beliefs to change. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update or revise any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events, except as otherwise may be required by the federal securities laws.

USE OF PROCEEDS

Unless otherwise stated in the prospectus supplement accompanying this prospectus or any applicable free writing prospectus, we will use the net proceeds from the sale of any debt securities that may be offered hereby for general corporate purposes. General corporate purposes may include, but are not limited to, increasing our liquidity, reducing or refinancing our indebtedness or the indebtedness of our subsidiaries, funding our operations, financing acquisitions and redeeming outstanding securities. Pending such use, the net proceeds may be invested temporarily in short-term, interest-bearing, investment-grade securities and/or similar assets as we may determine. The prospectus supplement relating to an offering will contain a more detailed description of the use of proceeds of any specific offering of securities.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of earnings to fixed charges for the periods indicated.

For purposes of determining the historical ratio of earnings to fixed charges, “earnings” consist of earnings before provision for income taxes, plus fixed charges. “Fixed charges” consist of (i) interest expense on all indebtedness, including amortization of debt expense, discounts and premiums and (ii) the portion of rental expense that is representative of the interest factor.

		2013	2012	2011	2010	2009
Ratio of earnings to fixed charges	4.9x	5.1x	5.4x	4.2x	2.8x	1.8x

DESCRIPTION OF DEBT SECURITIES

General

The following description of the terms of the debt securities sets forth the material terms and provisions of the debt securities to which any prospectus supplement may relate. The particular terms of the debt securities offered by any prospectus supplement and the extent, if any, to which such general provisions may apply to the debt securities so offered will be described in the prospectus supplement relating to such debt securities.

The debt securities will be issued in one or more series under the indenture (as amended and supplemented from time to time, the “indenture”), dated as of August 11, 2014, between us and The Bank of New York Mellon, as trustee (the “trustee”). The indenture is subject to any amendments or supplements we may enter into from time to time which are permitted under the indenture. We will file any amendments or supplements to the indenture as exhibits to a current report on Form 8-K or a post-effective amendment to the registration statement of which this prospectus is a part. The statements herein relating to the debt securities and the indenture are summaries and are subject to the detailed provisions of the indenture. The descriptions below do not restate the indenture and do not contain all the information you may find useful. We urge you to read the indenture because it, and not the summary below, defines your rights as a holder of our debt securities. If you would like to read the indenture, it is on file with the SEC, as described under “Where You Can Find More Information.” Whenever we refer to particular sections or defined terms in an indenture, those sections and definitions are incorporated by reference. The indenture is subject to and governed by the Trust Indenture Act of 1939 (the “Trust Indenture Act”).

As used in this description of debt securities, “we,” “our,” “us,” “Synchrony” and the “Company” refer to Synchrony Financial and not to any of our subsidiaries.

We will describe in the applicable prospectus supplement the terms of the series of debt securities that we may offer and the supplemental indenture relating to such series of debt securities. These terms will include the following:

- the designation and the aggregate principal amount of the debt securities of the series;
- any limit upon the aggregate principal amount of the debt securities of the series which may be issued;
- the date or dates on which the principal and premium, if any, of the debt securities of the series is payable;
- the rate or rates, or the method of determination thereof, at which the debt securities of the series shall bear interest, the date or dates from which such interest shall accrue, the interest payment dates on which such interest shall be payable and the record dates for the determination of holders to whom interest is payable;
- the currency of the debt securities of the series and the currency in which payments on the debt securities of the series are payable;
- the price or prices at which, the period or periods within which and the terms and conditions upon which debt securities of the series may be redeemed, in whole or in part, at our option, pursuant to any sinking fund or otherwise;
- our obligation, if any, to redeem, purchase or repay debt securities of the series pursuant to any sinking fund or analogous provisions or at the option of a holder thereof and the price at which or process by which and the period or periods within which and the terms and conditions upon which debt securities of the series would be redeemed, purchased or repaid, in whole or in part, pursuant to such obligation;
- the denominations in which debt securities of the series shall be issuable;
- any events of default, if different from the existing events of default under the indenture, and whether such additional or modified events of default are subject to covenant defeasance;

Table of Contents

- the trustee, if different from the existing trustee under the indenture;
- any addition to, or modification of, any covenants with respect to the debt securities of any series, and whether any such additional or modified covenant is subject to covenant defeasance; and
- any other terms of the series, which terms shall not be inconsistent with the provisions of the indenture.

Unless otherwise specified in the prospectus supplement, we will compute interest payments on the basis of a 360-day year consisting of twelve 30-day months.

When we use the term “business day,” we mean any calendar day that is not a Saturday, Sunday or a day on which commercial banking institutions are not required to be open for business in The City of New York, New York.

Unless otherwise specified in the applicable prospectus supplement, each series of the debt securities will be issued in the form of one or more fully registered debt securities registered in the name of the nominee of The Depository Trust Company (“DTC”) and in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

The indenture does not limit the aggregate amount of debt securities that we may issue. We may issue debt securities under the indenture up to the aggregate principal amount authorized by our board of directors from time to time. The indenture does not limit our ability to incur senior debt, subordinated or secured debt, or our ability, or that of any of our existing or future subsidiaries, to incur other indebtedness and other liabilities or issue preferred stock.

We may, from time to time, without the consent of the holders of debt securities of a particular series, reopen such series of debt securities and issue additional debt securities of such series having the same ranking and the same interest rate, maturity and other terms as the debt securities of such series, except for the public offering price, the issue date and, if applicable, the initial interest payment date and initial interest accrual date. Any such additional debt securities, together with the debt securities of such series initially offered by this prospectus and the applicable prospectus supplement, will constitute a single series of debt securities under the indenture; provided that if the additional debt securities are not fungible for U.S. federal income tax purposes with the debt securities of such series initially offered by this prospectus and the applicable prospectus supplement, the additional debt securities will be issued under a separate CUSIP number. No such additional debt securities may be issued if an event of default has occurred and is continuing with respect to the series of debt securities of which such additional debt securities would be a part.

The trustee will initially be the registrar and paying agent for the debt securities. We will maintain an office in the Borough of Manhattan, the City of New York where we will pay the principal and premium, if any, on the debt securities and you may present the debt securities for registration of transfer and exchange. We have designated the office of the trustee located at 101 Barclay Street, New York, New York 10286 for this purpose.

Ranking

Unless otherwise specified in the applicable prospectus supplement, each series of debt securities will be our direct, unsecured obligations and will rank without preference or priority among themselves and equally in right of payment with all of our existing and future unsecured and unsubordinated obligations, and senior in right of payment to all of our existing and future indebtedness that is expressly subordinated to such series of debt securities.

We are a holding company and conduct substantially all of our operations through subsidiaries. However, the debt securities will be obligations exclusively of Synchrony Financial and will not be guaranteed by any of our subsidiaries. As a result, the debt securities will be structurally subordinated to all indebtedness and other

[Table of Contents](#)

liabilities of our subsidiaries (including deposit liabilities of the Bank), as well as the indebtedness and other liabilities of our securitization entities, which means that creditors of our subsidiaries (including depositors of the Bank) and our securitization entities will be paid from their assets before holders of the debt securities would have any claims to those assets.

As a holding company, we depend on the ability of our subsidiaries, particularly the Bank, to transfer funds to us to meet our obligations, including our obligations to pay interest on the debt securities. Our subsidiaries have no obligation to pay any amounts due on the debt securities.

Certain Covenants

Set forth below are summaries of certain covenants in the indenture that apply to us, unless otherwise provided in any prospectus supplement. However, the indenture does not significantly limit our operations. In particular, the indenture does not:

- limit the amount of dividends that we can pay;
- limit the amount of debt securities that we can issue from time to time;
- limit the number of series of debt securities that we can issue from time to time;
- limit or otherwise restrict the total amount of debt that we or our subsidiaries may incur or the amount of other securities that we may issue; or
- contain any covenant or other provision that is specifically intended to afford any holder of debt securities any protection in the event of highly leveraged transactions or similar transactions involving us or our subsidiaries.

Limitation on Disposition of Voting Stock of the Bank

The indenture contains a covenant limiting our ability to dispose of the Voting Stock of a Bank Subsidiary (as defined below). This covenant generally provides that, except as permitted as described under “—Consolidation, Merger and Sale of Assets,” as long as any of the debt securities are outstanding:

- neither we nor any of our subsidiaries will sell, assign, transfer or otherwise dispose of any shares of Voting Stock of a Bank Subsidiary, or securities convertible into or options, warrants or rights to subscribe for or purchase shares of Voting Stock of a Bank Subsidiary, and we will not permit any Bank Subsidiary to issue any shares of, or securities convertible into or options, warrants or rights to subscribe for or purchase shares of, Voting Stock of a Bank Subsidiary, in each case if, after giving effect to such transaction and to the issuance of the maximum number of shares of Voting Stock of such Bank Subsidiary issuable upon the exercise of all such convertible securities, options, warrants or rights, such Bank Subsidiary would cease to be a “controlled subsidiary” (as defined below); and
- we will not permit any Bank Subsidiary to merge or consolidate with or into any corporation unless the survivor is us or is, or upon consummation of the merger or consolidation will become, a controlled subsidiary, or to lease, sell or transfer all or substantially all of its properties and assets to any person except to us or a controlled subsidiary or a person that upon such lease, sale or transfer will become a controlled subsidiary.

A “Bank Subsidiary” is the Bank, any successor to the Bank, or any subsidiary of the Company that owns, directly or indirectly, any Voting Securities of the Bank or any successor to the Bank.

A “controlled subsidiary” is a subsidiary of the Company in respect of which at least 80% of the outstanding shares of the Voting Stock of such subsidiary is at the time owned by us, by one or more of our subsidiaries or by us and one or more of our controlled subsidiaries.

[Table of Contents](#)

“Voting Stock” of any specified person as of any date means the capital stock of such person of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of such person; *provided* that, for the purposes hereof, capital stock which carries only the right to vote conditionally on the happening of an event shall not be considered “Voting Stock” whether or not such event shall have happened.

The limitations described above do not apply to transactions required by law, rule, regulation or order of any governmental agency or authority. In addition, for the avoidance of doubt, the limitations described in the second bullet point above will not apply to any transfer of loan receivables, on customary terms and in the ordinary course of business, directly or indirectly to our securitization entities in connection with our securitization financing facilities.

Limitation on Creation of Liens

The indenture contains a covenant limiting our ability to create liens on the Voting Stock of a Bank Subsidiary. This covenant generally provides that, as long as any series of the debt securities are outstanding, neither we nor any of our subsidiaries will create, assume or incur any pledge, encumbrance or lien upon any shares of Voting Stock of a Bank Subsidiary, or upon securities convertible into or options, warrants or rights to subscribe for or purchase, any shares of Voting Stock of a Bank Subsidiary, in each case to secure indebtedness for borrowed money, if, treating such pledge, encumbrance or lien as a transfer of the shares of Voting Stock of such Bank Subsidiary or securities convertible into or options, warrants or rights to subscribe for or purchase shares of Voting Stock of such Bank Subsidiary to the secured party (in each case after giving effect to such transaction and to the issuance of the maximum number of shares of Voting Stock of such Bank Subsidiary issuable upon the exercise of all such convertible securities, options, warrants or rights), such Bank Subsidiary would cease to be a controlled subsidiary (as defined above), unless the debt securities are equally and ratably secured with any and all such indebtedness for so long as such indebtedness is so secured.

In addition, for the avoidance of doubt, the limitations described in the preceding paragraph do not apply to the incurrence of any pledge, encumbrance or lien upon loan receivables, on customary terms and in the ordinary course of business, in connection with our securitization financing facilities.

Reports

We will be required to file with the trustee, within 15 days after we are required to file the same with the SEC, copies of the annual reports and of the information, documents, and other reports that we are required to file with the SEC pursuant to Section 13 or Section 15(d) of the Exchange Act or pursuant to Section 314 of the Trust Indenture Act. Annual reports, information, documents and reports that are filed by us with the SEC via the EDGAR system or any successor electronic delivery procedure will be deemed to be filed with the trustee at the time such documents are filed via the EDGAR system or such successor procedure. Delivery of such reports, information and documents to the Trustee is for informational purposes only, and the Trustee’s receipt of such will not constitute constructive notice of any information contained therein or determinable from information contained therein, including our compliance with any of our covenants hereunder.

Consolidation, Merger and Sale of Assets

We have agreed in the indenture that we will not (i) merge or consolidate with any other person, nor (ii) sell, convey, transfer or otherwise dispose of all or substantially all of our assets to any person (other than a subsidiary), in each case unless:

- either we are the continuing person or the successor person is a corporation or limited liability company organized and existing under the laws of the United States of America or any state thereof or the District of Columbia and this other person expressly assumes all of our obligations under the indenture and the debt securities; *provided* that, in the event that such successor person is not a corporation, another person that is a corporation shall expressly assume, as co-obligor with such successor person, all of our obligations under the indenture and the debt securities;

Table of Contents

- immediately after such merger or consolidation, or such sale, conveyance, transfer or other disposition, no default or event of default has occurred and is continuing under the indenture; and
- we have delivered to the trustee an officer's certificate and an opinion of counsel, each stating that such merger, consolidation, sale, conveyance, transfer or other disposition and such supplemental indenture (if any) comply with the indenture.

In the event of any such merger, consolidation, sale, conveyance (other than by way of lease), transfer or other disposition, and upon any such assumption by the successor person, such successor person shall succeed to and be substituted for us, with the same effect as if it had been named in the indenture as us and we shall be relieved of any further obligations under the indenture and under the debt securities and the predecessor company may be dissolved, wound up and liquidated at any time thereafter.

For the avoidance of doubt, without limiting the foregoing, the limitations described in this section will not apply to any transfer of loan receivables, on customary terms and in the ordinary course of business, directly or indirectly to our securitization entities in connection with our securitization financing facilities.

Events of Default

Unless otherwise provided in any prospectus supplement, any of the following events will constitute an event of default under the indenture with respect to any debt securities:

- default in the payment of any installment of interest on such series of debt securities when due and payable, and the continuance of such default for 30 days;
- default in the payment of the principal of, or premium, if any, on such series of debt securities when due and payable (whether at maturity, upon redemption or otherwise);
- default in the making or satisfaction of any sinking fund payment or analogous obligation as and when the same shall become due and payable by the terms of the debt securities of such series;
- failure to observe or perform any other covenants or agreements in the indenture in respect of the debt securities of such series, which failure continues for 60 days after written notice, requiring us to remedy the same, from the trustee or holders of at least 25% of the outstanding principal amount of such series of debt securities as provided in the indenture;
- any indebtedness of ours or the Bank (or any successor to the Bank) for borrowed money is accelerated by its terms if the aggregate principal amount of such indebtedness which has been so accelerated exceeds \$100 million and the acceleration is not rescinded or annulled within 15 days after written notice from the trustee or holders of at least 25% of the outstanding principal amount of such series of debt securities as provided in the indenture; *provided* that this event of default will be remedied, cured or waived without further action upon the part of either the trustee or any of the holders if any default giving rise to the acceleration of such other indebtedness is remedied, cured or waived; and
- specified events relating to the bankruptcy, insolvency, reorganization or receivership of us or the Bank (or any successor to the Bank).

Remedies

If an event of default arising from specified events of the bankruptcy, insolvency, reorganization or receivership of us or the Bank (or any successor to the Bank) occurs, the principal amount of all outstanding debt securities will become due and payable immediately, without further action or notice on the part of the holders of the debt securities or the trustee. If any other event of default with respect to a series of debt securities occurs, the trustee or the holders of not less than 25% in principal amount of outstanding debt securities of such series may

[Table of Contents](#)

declare the principal amount of the debt securities of such series to be due and payable immediately, by a notice in writing to us, and to the trustee if given by holders. Upon that declaration the principal amount of such series of debt securities will become immediately due and payable. However, at any time after a declaration has been made or such series of debt securities have otherwise become due and payable, but before a judgment or decree for payment of the money due has been obtained, the holders of a majority in principal amount of outstanding debt securities of such series may, subject to conditions specified in the indenture, rescind and annul that declaration or acceleration and its consequences.

Subject to the provisions of the indenture relating to the duties of the trustee, if an event of default then exists, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at your request, order or direction, unless you have offered to the trustee reasonable security or indemnity. Subject to the provisions for the security or indemnification of the trustee and otherwise in accordance with the conditions specified in the indenture, the holders of a majority in principal amount of outstanding debt securities of any series have the right to direct the time, method and place of conducting any proceeding for and remedy available to the trustee, or exercising any trust or power conferred on the trustee in connection with the debt securities of such series.

Notice of Default

The trustee will, within 90 days after the occurrence of a default with respect to a series of debt securities, mail to the holders of such debt securities notice of such default relating to such series of debt securities, unless such default has been cured or waived. However, the Trust Indenture Act and the indenture currently permit the trustee to withhold notices of defaults (except for certain payment defaults) if the trustee in good faith determines that withholding of such notices to be in the interests of the holders.

We will furnish the trustee with an annual statement as to our compliance with the conditions and covenants in the indenture.

Legal Proceedings and Enforcement of Right of Payment

You will not have any right to institute any proceeding under or with respect to the indenture or for any remedy under the indenture, unless you have previously given to the trustee written notice of a continuing event of default with respect to the debt securities. In addition, the holders of at least 25% in principal amount of the outstanding debt securities of a series must have made written request, and offered reasonable indemnity, to the trustee to institute that proceeding as trustee, and, within 60 days following the receipt of that notice, the trustee must not have received from the holders of a majority in principal amount of the outstanding debt securities of such series a direction inconsistent with that request, and must have failed to institute the proceeding. However, you will have an absolute right to receive payment of the principal of, premium, if any, and interest on that debt security at the place, time, rates and in the currency expressed in the indenture and the debt security and to institute a suit for the enforcement of that payment.

Modification of Indenture

We may enter into supplemental indentures for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of the indenture with respect to one or more series of debt securities with the consent of holders of a majority in aggregate principal amount of the debt securities of all such series affected by such modification or amendment, voting as a single class. However, the consent of each holder affected is required for any amendment:

- to change the stated maturity of principal of, or any installment of principal of or interest on, any debt security;
- to reduce the rate of or extend the time for payment of interest, if any, on any debt security or to alter the manner of calculation of interest payable on any debt security;
- to reduce the principal amount or premium, if any, on any debt security;

Table of Contents

- to make the principal of, premium, if any, or interest on any debt security payable in a different currency;
- to reduce the percentage in principal amount of any series of debt securities, the holders of which are required to consent to any supplemental indenture or to any waiver of any past default or event of default;
- to change any place of payment where the debt securities or interest thereon is payable;
- to modify the interest rate reset provision of any debt security;
- to impair the right of any holder of the debt securities to receive payment of the principal of, or premium, if any, or interest on any debt securities on or after the respective due dates for such principal or interest, or to institute suit for the enforcement of any such payment, or reduce the amount of the principal of an original issue discount security that would be due and payable upon an acceleration of the maturity thereof, or adversely affect the right of repayment, if any, at the option of the holder, or extend the time for, or reduce the amount of, any payment to any sinking fund or analogous obligation relating to any debt security; or
- to modify provisions of the indenture relating to waiver of defaults or amendment of the indenture, except to increase the percentage in principal amount of debt securities whose holders must consent to an amendment or to provide that certain other provisions of the indenture cannot be modified or waived without the consent of the holder of each outstanding debt security affected by the modification or waiver.

Notwithstanding the foregoing, holders of the debt securities of any series shall vote as a separate class with respect to modifications or amendments that affect only the debt securities of such series, and the holders of other series of debt securities shall not have any voting rights with respect to such matters as they relate to the debt securities of such series.

In addition, we and the trustee with respect to the indenture may enter into supplemental indentures without the consent of the holders of the debt securities of any series for one or more of the following purposes:

- to evidence that another corporation or limited liability company has become our successor and/or to add a co-obligor under the provisions of the indenture relating to mergers, consolidations, sales, conveyances, transfers or other dispositions of assets described under “—Consolidation, Merger and Sale of Assets” above, and that the successor assumes our covenants, agreements and obligations in the indenture and in the debt securities;
- to add to our covenants further covenants, restrictions, conditions or provisions for the protection of the holders of all or any series of the debt securities as our board of directors and the trustee shall consider to be for the protection of the holders of such debt securities, and to make a default in any of these additional covenants, restrictions, conditions or provisions a default or an event of default under the indenture;
- to establish the forms or terms of debt securities of any series;
- to cure any ambiguity, to correct or supplement any provisions that may be defective or inconsistent with any other provision or to make such other provisions in regard to matters or questions arising under the indenture that do not adversely affect the interests of the holders of such series of debt securities in any material respect; *provided* that any amendment made solely to conform the provisions of the indenture to the description of the debt securities contained in the prospectus or other offering document pursuant to which the debt securities were sold will not be deemed to adversely affect the interests of the holders of the debt securities;
- to modify or amend the indenture to permit the qualification of the indenture or any supplemental indenture under the Trust Indenture Act as then in effect;
- to provide for the issuance of additional debt securities of any series;

[Table of Contents](#)

- to provide for the exchange of any debt securities in global form represented by one or more global certificates for debt securities of the same series issued under the indenture in definitive certificated form in the circumstances permitted by the terms of the indenture and such debt securities, and to make all appropriate changes to the indenture for such purpose;
- to add to, change or eliminate any of the provisions of the indenture in respect of one or more series of debt securities; *provided* that any such addition, change or elimination (i) shall not apply to, or modify the rights of any holder of, any debt security of any series created prior to the execution of such supplemental indenture or (ii) shall become effective only when no debt securities of any series created prior to the execution of such supplemental indenture are outstanding;
- to add guarantees with respect to any series of debt securities or to secure any series of debt securities; and
- to evidence and provide for the acceptance of appointment by a successor or separate trustee with respect to the debt securities.

Defeasance of Indenture

We have the right to terminate all of our obligations with respect to a series of debt securities under the covenants described above under “—Certain Covenants” and under such other covenants for such series as may be established in the future in accordance with the terms of the indenture and to provide that the events described in the third bullet under “—Events of Default” (as it relates to any covenants referred to in the preceding part of this sentence) and any other event of default expressed to be subject to covenant defeasance under the indenture shall no longer constitute events of default under the indenture with respect to such series of debt securities, following irrevocably depositing in trust with the trustee, as trust funds solely for the benefit of holders of debt securities of such series, money in an amount sufficient, U.S. government obligations the scheduled payments of principal and interest on which shall be sufficient, or a combination thereof sufficient, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification delivered to the Trustee, without consideration of any reinvestment of interest, to pay principal of, premium, if any, and interest, if any, on the debt securities of such series to their maturity or redemption, as the case may be, and complying with certain other conditions, including delivery to the trustee of an opinion of counsel, to the effect that you will not recognize income, gain or loss for federal income tax purposes as a result of our exercise of such right and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case otherwise.

In addition, we have the right at any time to terminate all of our obligations under the indenture with respect to any series of debt securities, other than (i) your right to receive, solely from the trust fund described below, payments of principal of, and interest on, such series of debt securities when due and (ii) certain obligations relating to the defeasance trust and obligations to register the transfer or exchange of the debt securities, to replace mutilated, lost or stolen debt securities, to maintain a registrar and paying agent in respect of the debt securities, to pay compensation to, and expenses of, the trustee, and with respect to the resignation or removal of the trustee, following irrevocably depositing in trust with the trustee, as trust funds solely for the benefit of holders of debt securities of such series, money in an amount sufficient, U.S. government obligations the scheduled payments of principal and interest on which shall be sufficient, or a combination thereof sufficient, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification delivered to the trustee, without consideration of any reinvestment of interest, to pay principal of, premium, if any, and interest, if any, on the debt securities of such series to their maturity or redemption, as the case may be, and complying with certain other conditions, including delivery to the trustee of a ruling received from the Internal Revenue Service or an opinion of counsel to the effect that you will not recognize income, gain or loss for federal income tax purposes as a result of our exercise of such right and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case otherwise, which, in the case of an opinion of counsel, is based upon a change in law after the date of the indenture.

Original Issue Discount Securities

Debt securities may be sold at a substantial discount below their stated principal amount and may bear no interest or interest at a rate which at the time of issuance is below market rates. Important federal income tax consequences and special considerations applicable to any such debt securities will be described in the applicable prospectus supplement.

Indexed Securities

If the amount of payments of principal of, and premium, if any, or any interest on, debt securities of any series is determined with reference to any type of index or formula or changes in prices of particular securities or commodities, the federal income tax consequences, specific terms and other information with respect to such debt securities and such index or formula and securities or commodities will be described in the applicable prospectus supplement.

Foreign Currencies

If the principal of, and premium, if any, or any interest on, debt securities of any series are payable in a foreign or composite currency, the restrictions, elections, federal income tax consequences, specific terms and other information with respect to such debt securities and such currency will be described in the applicable prospectus supplement.

Satisfaction and Discharge

The indenture will generally cease to be of any further effect with respect to any series of debt securities, if:

- either (i) we have delivered to the trustee for cancellation all outstanding debt securities of such series (with certain limited exceptions), or (ii) all such debt securities of such series not previously delivered to the trustee for cancellation have become due and payable, or are by their terms to become due and payable within one year, or are to be called for redemption within one year under arrangements satisfactory to the trustee, and we have deposited with the trustee in trust, funds sufficient to pay at maturity or upon redemption all of the outstanding debt securities of such series; and
- if, in either case, we also pay or cause to be paid all other sums then payable under the indenture by us.

Any monies and U.S. government obligations deposited with the trustee for payment of principal of, premium, if any, or interest, if any, on the debt securities of any series and not applied but remaining unclaimed by the holders of the debt securities of such series for two years after the date upon which the principal of, and interest and premium, if any, on, the debt securities of such series, as the case may be, shall have become due and payable, shall be repaid to us by the trustee on written demand. Thereafter, the holder of the debt securities of such series may look only to us for payment thereof.

Miscellaneous Provisions

The indenture provides that certain series of debt securities, including those for which payment has been deposited or set aside in trust as described under “—Satisfaction and Discharge” above, will not be deemed to be “outstanding” in determining whether the holders of the requisite principal amount of the outstanding debt securities have given or taken any demand, direction, consent or other action under the indenture as of any date, or are present at a meeting of holders for quorum purposes.

We will be entitled to set any day as a record date for the purpose of determining the identity of holders of debt securities of any series issued under the indenture entitled to vote or consent (or to revoke any vote or consent) to any action under the indenture, in the manner and subject to the limitations provided in the indenture.

[Table of Contents](#)

Resignation and Removal of the Trustee

The trustee may resign at any time by giving written notice thereof to us.

Under certain circumstances, we may remove the trustee and appoint a successor trustee. The trustee may also be removed by act of the holders of a majority in principal amount of the then outstanding debt securities of one or more series.

No resignation or removal of the trustee and no appointment of a successor trustee will become effective until the acceptance of appointment by a successor trustee in accordance with the requirements of the indenture.

Governing Law

The indenture and the debt securities, and any claim, controversy or dispute arising under or related to the indenture and the debt securities, will be governed by and construed in accordance with the laws of the State of New York.

Book-Entry System

Unless otherwise indicated in the prospectus supplement, DTC, which we refer to along with its successors in this capacity as the “depository,” will act as securities depository for the debt securities. Unless otherwise indicated in the prospectus supplement, each series of debt securities will be issued as fully registered securities registered in the name of Cede & Co., the depository’s nominee. One or more fully registered global security certificates, representing the total aggregate principal amount of each series of the debt securities, will be issued with respect to each series of the debt securities and will be deposited with the depository or its custodian and will bear a legend regarding the restrictions on exchanges and registration of transfer referred to below.

The laws of some jurisdictions may require that some purchasers of securities take physical delivery of securities in definitive form. These laws may impair the ability to transfer beneficial interests in the debt securities so long as the debt securities are represented by global security certificates.

Investors may elect to hold interests in the global debt securities through either DTC in the United States or Clearstream Banking, société anonyme (“Clearstream, Luxembourg”) or Euroclear Bank S.A./N.V., as operator of the Euroclear System (the “Euroclear System”), in Europe if they are participants of such systems, or indirectly through organizations which are participants in such systems. Clearstream, Luxembourg and the Euroclear System will hold interests on behalf of their participants through customers’ securities accounts in Clearstream, Luxembourg’s and the Euroclear System’s names on the books of their respective depositories, which in turn will hold such interests in customers’ securities accounts in the respective depositories’ names on the books of DTC. Citibank N.A. will act as depository for Clearstream, Luxembourg and JPMorgan Chase Bank will act as depository for the Euroclear System (in such capacities, the “U.S. Depositories”).

DTC advises that it is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act. The depository holds securities that its participants deposit with the depository. The depository also facilitates the settlement among participants of securities transactions, including transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants’ accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Access to the depository’s system is also available to others, including securities brokers and dealers, banks and trust companies that clear transactions through or maintain a direct or indirect custodial relationship with a direct participant either directly, or indirectly. The rules applicable to the depository and its participants are on file with the SEC.

[Table of Contents](#)

Clearstream, Luxembourg advises that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream, Luxembourg holds securities for its participating organizations (“Clearstream Participants”) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg provides to Clearstream Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream, Luxembourg interfaces with domestic markets in several countries. As a professional depository, Clearstream, Luxembourg is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (Commission de Surveillance du Secteur Financier). Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream, Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant, either directly or indirectly.

Distributions with respect to interests in the debt securities held beneficially through Clearstream, Luxembourg will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures, to the extent received by the U.S. Depository for Clearstream, Luxembourg.

The Euroclear System advises that it was created in 1968 to hold securities for participants of the Euroclear System (“Euroclear Participants”) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. The Euroclear System includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. The Euroclear System is operated by Euroclear Bank S.A./N.V. (the “Euroclear Operator”). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear System cash accounts are accounts with the Euroclear Operator. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to the Euroclear System is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the “Terms and Conditions”). The Terms and Conditions govern transfers of securities and cash within the Euroclear System, withdrawals of securities and cash from the Euroclear System, and receipts of payments with respect to securities in the Euroclear System. All securities in the Euroclear System are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants, and has no records of or relationship with persons holding through Euroclear Participants.

Distributions with respect to each series of debt securities held beneficially through the Euroclear System will be credited to the cash accounts of Euroclear Participants in accordance with the Terms and Conditions, to the extent received by the U.S. Depository for the Euroclear System.

We will issue debt securities in definitive certificated form in exchange for global securities if:

- the depository notifies us that it is unwilling or unable to continue as depository with respect to the applicable series of debt securities or the depository ceases to be a clearing agency registered under the Exchange Act and, in each case, a successor depository is not appointed by us within 90 days of such notice or of our becoming aware of such failure to be registered;
- we determine at any time that the applicable series of debt securities will no longer be represented by global security certificates (in which case we will inform the depository of such determination and who

[Table of Contents](#)

will, in turn, notify participants of their right to withdraw their beneficial interest from the global security certificates representing such series of debt securities); or

- any event shall have occurred and be continuing which, after notice or lapse of time, or both, would constitute an event of default with respect to the applicable series of debt securities, and such exchange is so requested by or on behalf of the depositary in accordance with customary procedures following the request of a beneficial owner seeking to exercise or enforce its rights under that series of debt securities.

Any global debt security, or portion thereof, that is exchangeable pursuant to this paragraph will be exchangeable for debt security certificates, as the case may be, registered in the names directed by the depositary. We expect that these instructions will be based upon directions received by the depositary from its participants with respect to ownership of beneficial interests in the global security certificates.

As long as the depositary or its nominee is the registered owner of the global security certificates, the depositary or its nominee, as the case may be, will be considered the sole owner and holder of the global security certificates and all debt securities represented by these certificates for all purposes under the debt securities and the indenture. Except in the limited circumstances referred to above, owners of beneficial interests in global security certificates:

- will not be entitled to have the debt securities represented by these global security certificates registered in their names; and
- will not be considered to be owners or holders of the global security certificates or any debt securities represented by these certificates for any purpose under the debt securities or the indenture.

All payments on the debt securities represented by the global security certificates and all transfers and deliveries of related debt securities will be made to the depositary or its nominee, as the case may be, as the holder of the debt securities.

Ownership of beneficial interests in the global security certificates will be limited to participants or persons that may hold beneficial interests through institutions that have accounts with the depositary or its nominee. Ownership of beneficial interests in global security certificates will be shown only on, and the transfer of those ownership interests will be effected only through, records maintained by the depositary or its nominee, with respect to participants' interests, or any participant, with respect to interests of persons held by the participant on their behalf. Payments, transfers, deliveries, exchanges and other matters relating to beneficial interests in global security certificates may be subject to various policies and procedures adopted by the depositary from time to time. Neither we nor the trustee will have any responsibility or liability for any aspect of the depositary's or any participant's records relating to, or for payments made on account of, beneficial interests in global security certificates, or for maintaining, supervising or reviewing any of the depositary's records or any participant's records relating to these beneficial ownership interests.

Although the depositary has agreed to the foregoing procedures in order to facilitate transfers of interests in the global security certificates among participants, the depositary is under no obligation to perform or continue to perform these procedures, and these procedures may be discontinued at any time. We will not have any responsibility for the performance by the depositary or its direct participants or indirect participants under the rules and procedures governing the depositary.

The information in this section concerning the depositary, its book-entry system, Clearstream, Luxembourg and the Euroclear System has been obtained from sources that we believe to be reliable, but we have not attempted to verify the accuracy of this information.

Global Clearance and Settlement Procedures

Unless otherwise indicated in the prospectus supplement, initial settlement for the debt securities will be made in immediately available funds. Secondary market trading between DTC Participants will occur in the ordinary way in accordance with DTC rules and will be settled in immediately available funds using DTC's

[Table of Contents](#)

Same-Day Funds Settlement System. Secondary market trading between Clearstream Participants and/or Euroclear Participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream, Luxembourg and the Euroclear System, as applicable.

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand, and directly or indirectly through Clearstream Participants or Euroclear Participants, on the other, will be effected through DTC in accordance with DTC rules on behalf of the relevant European international clearing system by its U.S. Depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. Depository to take action to effect final settlement on its behalf by delivering or receiving securities in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream Participants and Euroclear Participants may not deliver instructions directly to their respective U.S. Depositories.

Because of time-zone differences, credits of debt securities received in Clearstream, Luxembourg or the Euroclear System as a result of a transaction with a DTC Participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions in such debt securities settled during such processing will be reported to the relevant Euroclear Participant or Clearstream Participant on such business day. Cash received in Clearstream, Luxembourg or the Euroclear System as a result of sales of the debt securities by or through a Clearstream Participant or a Euroclear Participant to a DTC Participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream, Luxembourg or the Euroclear System cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream, Luxembourg and the Euroclear System have agreed to the foregoing procedures in order to facilitate transfers of debt securities among participants of DTC, Clearstream, Luxembourg and the Euroclear System, they are under no obligation to perform or continue to perform such procedures and such procedures may be discontinued or changed at any time.

- the name or names of any underwriters, dealers or agents;
- the purchase price of the securities and the proceeds to us from the sale;

Only those underwriters identified in such prospectus supplement are deemed to be underwriters in connection with the debt securities offered in the prospectus supplement. Any underwritten offering may be on a best efforts or a firm commitment basis.

In connection with the sale of the debt securities, underwriters, dealers or agents may be deemed to have received compensation from us in the form of underwriting discounts or commissions and also may receive commissions from securities purchasers for whom they may act as agent. Underwriters may sell the securities to or through dealers, and the dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for whom they may act as agent.

We will provide in the applicable prospectus supplement information regarding any underwriting discounts or other compensation that we pay to underwriters or agents in connection with the debt securities offering, and any discounts, concessions or commissions which underwriters allow to dealers. they receive and any profit they realize on the resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act. Underwriters and their controlling persons, dealers and agents may be entitled, under agreements entered into with us, to indemnification against and contribution toward specific civil liabilities, including liabilities under the Securities Act.

Unless otherwise specified in the related prospectus supplement, each series of debt securities offered and sold by us pursuant to this prospectus will be a new issue with no established trading market. We may elect to list any series of debt securities on an exchange, but we are not obligated to do so. It is possible that one or more underwriters may make a market in the debt securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of, or the trading market for, any offered debt securities.

In connection with an offering, the underwriters may purchase and sell securities in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of debt securities than they are required to purchase in an offering. Stabilizing transactions consist of bids or purchases made for the purpose of preventing or retarding a decline in the market price of the debt securities while an offering is in progress. The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the underwriters have repurchased securities sold by or for the account of that underwriter in stabilizing or short-covering transactions. These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the debt securities. As a result, the price of the debt securities may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. If any underwriters create a short position in the debt securities in an offering in which they sell more debt securities than are set forth on the cover page of the applicable prospectus supplement, the underwriters may reduce that short position by purchasing the debt securities in the open market.

Underwriters, dealers or agents that participate in the offer of debt securities, or their affiliates or associates, may have engaged or engage in transactions with and perform services for, us or our affiliates in the ordinary course of business for which they may have received or receive customary fees and reimbursement of expenses.
